
Raingarden Nature Strip Configuration C120.03

DESIGN STATEMENT

Water Sensitive Urban Design (WSUD) is an approach to improve sustainable use of water in the urban environment.

In residential areas nature strips may provide an opportunity for raingardens. This configuration can also be applied to wide footpaths that do not have grassed areas.

Moreland City Council Streetscape WSUD Raingarden and Tree Pit Design Package (WSUD Package) provides a suite of design elements, applications and standard drawings to assist WSUD site-specific design.

APPLICABLE LOCATION

Nature strips.

COUNCIL STANDARD DRAWING

N/A
